FLOWER ACRES

U. S. Department of Agriculture  
Avon Center and Weber Roads

AVON LAKE VILLAGE, OHIO

Prices this year are in keeping with the times, and I think a little consideration will convince you that my Bulbs are worth every penny I ask. Every Bulb has been Gassed again this year with Carbon Tetrachloride-Ethylene Dichloride before going into the Bulb Cellar. This kills eggs as well as thrips.

This treatment last year proved 100% effective in stamping out thrip. We repeated it again to absolutely insure against the possibility of a thrip or an egg.

Practically every grower advertises thrip-free Bulbs, but the only way to be absolutely sure is to get Bulbs which have been Gassed, and gassed properly.

Entomologists are now agreed that the principal source of thrip infestation is from the bulbs you plant, on which are invisible eggs.

Do not be influenced by cheap prices on Bulbs which are not guaranteed to have been properly Gassed. This, needless to say, adds a little to the cost of production, BUT—

INFESTED BULBS ARE EXPENSIVE AT ANY PRICE

VISITORS ARE ALWAYS WELCOME

No orders for less than \$1.00.

**ALL ORDERS SENT PREPAID**

If you have never bought Bulbs from me, we have both missed something. If you have, you know what the others have missed.

If you have any complaint whatsoever of my treatment, I WANT TO KNOW ABOUT IT.

I thank you for your patronage.

YES, I won lots of PRIZES again in 1932, and so did many of my customers.
